

HTA/TRA STALL SHAVINGS SURVEY

Question: Does track restrict use of shavings for bedding in allotted stalls or ship-in areas?

The following tracks indicated there were **NO** restrictions: Arlington Park, Buffalo Raceway, Delaware County Fair, Dover Downs, Harrington, Hoosier Park, Lone Star Park, Keeneland, Meadowlands, Ocean Downs, Philadelphia Park/Aycee, Pompano Park, Prairie Meadows, Remington Park, Rosecroft Raceway, Suburban Downs, and Tioga Downs.

The table below indicates those tracks with shavings restrictions and respective responses.

Track	Specifications
Calder Race Course	Shavings only; Approval for straw required and its disposal.
Canterbury Park	No bulk shaving permitted; Bagged only.
Chester Downs	No barn area but are allowed to bring in shavings, provided they also clean out the stall at the end of the race day. Several Lasix and catch stalls are also bedded with shavings; we do provide the shavings for those enclosures.
Delaware Park	Trainers are responsible for setup and delivery of shavings with vendor and payment. Limited number of stalls for shavings.
Ellis Park	No bulk shaving permitted; Bagged only.
Finger Lakes	Trainers are responsible to have shavings that meet CAFO container requirements; Removal of shavings/containers are trainers responsibility; Straw is removed at track expense.
Hippodrome de Montreal	Only what is provided by us is permitted. (Wood Shavings)
The Meadows	Shavings are provided in ship in areas and detention barns and restricted in stall space. Acceptable stall space bedding is limited to straw and Strufex.
Mohegan Sun @ Pocono Downs	Trainers can use wood shavings, but are charged \$200 per stall for the season to offset the costs of disposal.
Portland Meadows	EPA Disposal guidelines.
Rockingham Park	Allows bagged shavings, but if in bulk, must be put in stalls on day of delivery. No piles of shavings are allowed in the stable area.
Tampa Bay Downs	Shavings only; Exception for shippers.
Thistledown	Shavings and Strufex only.
Woodbine/ Mohawk	Straw or shavings on the backstretch. Track provides for retention and ship in stalls, but mainly shavings are used. Ratio: 75%, shavings; 25%, straw.
