

RESULTS OF TRA BACKSTRETCH INCIDENT REPORTING SOFTWARE SURVEY

July 2011

Survey Question: Do you utilize any software to specifically track incidents occurring in the backstretch?

Track	If yes, what type of software?		Comments:
Beulah Park	Yes		Excel Spreadsheet
Calder		No	
Canterbury Park	Yes		Excel spreadsheet
Charles Town		No	Security reports are filled out on a form prescribed by security department for each incident/accident, but no software is used.
Churchill Downs		No	CDI maintains records of Workers' Claims filed by CDI employees only
Del Mar			
Ellis Park		No	
Fair Grounds		No	
Finger Lakes		No	Our medics generate a written patient data report of the incident. All reports are forwarded to our insurance company if requested. Security also prepares a written incident report and photograph of the incident.
Hawthorne		No	We do keep a file of any reports of incidents in Word, but it is not specific software.
Parx Racing		No	
Penn National	Yes		iTrak
Portland Meadows		No	Reports are done by Security personnel.
Remington Park	Yes		Competitive Edge Software Inc. According to those who use it for all incident reporting, we have had it for a long time, works ok, but complicated.
Sam Houston		No	Our Director of Security, VP of Operations, VP of Racing and Director of HR all monitor daily activity reports and discuss anything out of the ordinary.
Tampa Bay Downs		No	
Woodbine	Yes		PPM2000 Perspective
			Great program.
