

2011 TRA VETERINARY WASTE DISPOSAL SURVEY

1. Do you provide disposal receptacles for veterinary waste (needles/sharps, medical supplies, etc.)? Yes or No
2. If yes, who pays for this service?
3. Comments:
4. Your Information:
 - Name
 - Title
 - Track
 - Phone
 - Email

RESULTS OF 2011 TRA VETERINARY WASTE DISPOSAL SURVEY

July 2011

Track	Do you provide disposal receptacles for veterinary waste?		If yes, who pays?	Comments:
Canterbury Park	Yes		Track	Track will pay until privilege is abused
Charles Town Races		No		
Churchill Downs		No		Each vet is individually responsible for disposal of this material. CDRT does not provide receptacles for them.
Delaware Park	Yes		Veterinarians	Practicing vets are responsible for their own veterinary waste. The track is responsible for State Veterinary waste.
Fair Grounds		No		
Finger Lakes	Yes		Track	We provide disposal receptacles for our association vets. Private vets; however, supply their receptacles.
NYRA (three tracks)		No	Veterinarians	We only provide for our own vets as we do lasix, blood gas etc. Private vets provide for themselves.
Parx Racing	Yes		Track	
Portland Meadows	Yes		Track	
Prairie Meadows		No		
Remington Park	Yes		Track	Remington has twice a week pick up of all medical waste from a receptacle in the test barn. This includes needles, syringes, vials and any other medical wastes from both equine and human as our EMT's also use these receptacles. Some blood tubes and urine samples from test barn ends up in these receptacles.
Sam Houston	Yes		Track	The service is provided and paid for by our Equine lab operator in exchange for a portion of his lease.
Tampa Bay Downs	Yes		see comments	We impose a license fee which covers cost of disposal
Woodbine		No	Veterinarians	Veterinarians pay for their own waste disposal but our Track supplies waste bins (needles/sharps) in the certain bathrooms. I would say the major portion is paid/supplied by vets
